

Posturepedic

Supports your life

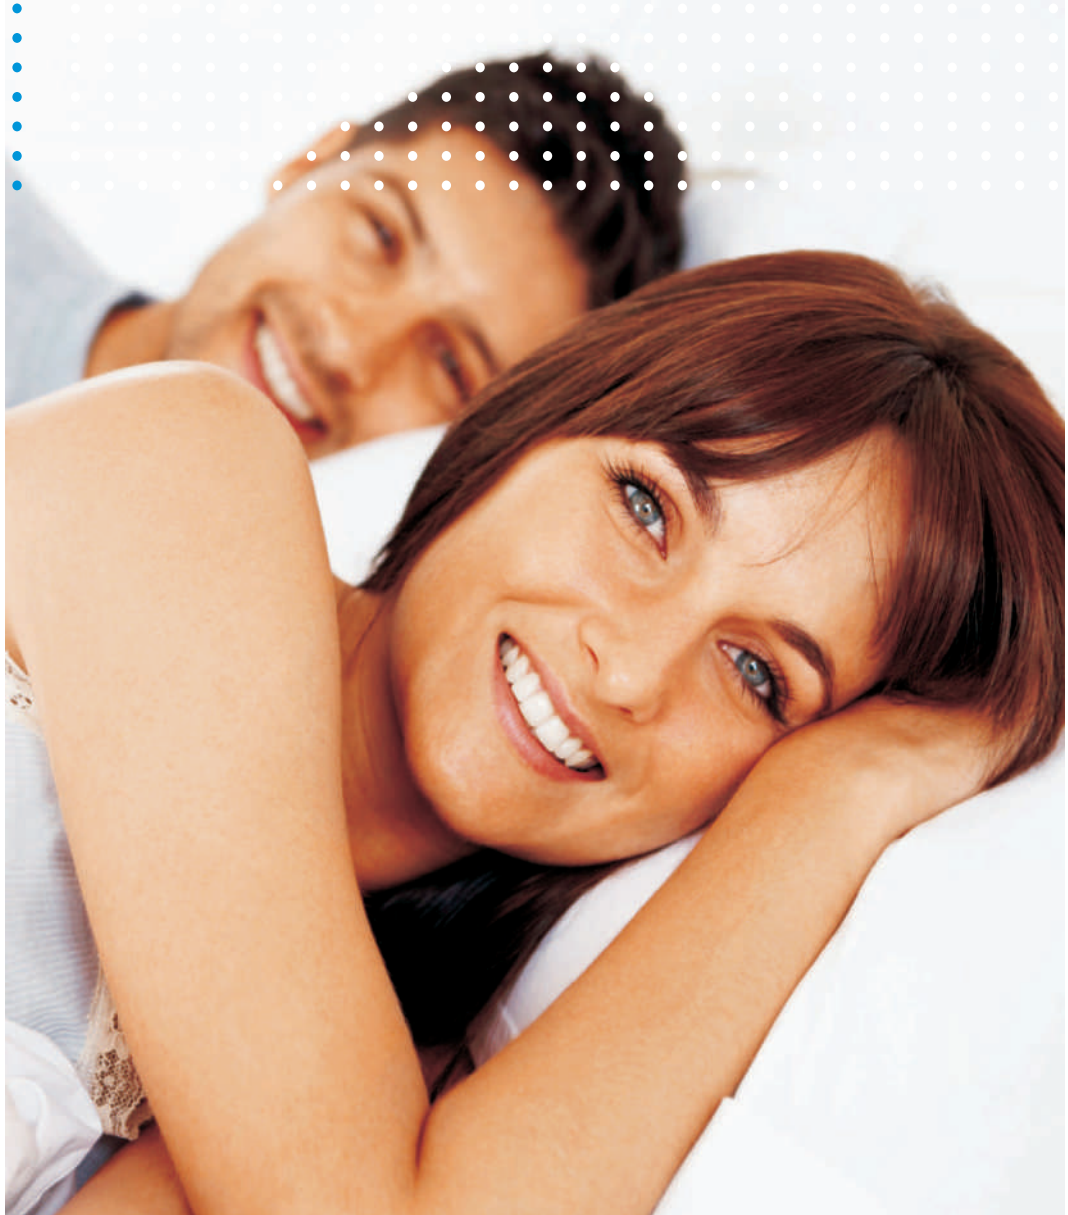

For everything you do in bed

Your bed should be a haven for your body to relax and escape to. After a busy day, your active muscles deserve to rest, recover and to recharge your body for another beautiful day ahead. Your bed should also be a place to laugh, dream and reconnect, whether it is with yourself or the ones you love. A good night's sleep assists in keeping your body healthy.

From the mattress through to the foundation, a Sealy Posturepedic is designed to provide the perfect balance of correct support and superior comfort. After celebrating our 5 millionth mattress sold in 2014, its easy to understand why Sealy is the No. 1 mattress choice*.

*QMR Tracking Study September 2014.

Ultimate Comfort

Sealy has invented the Stay True Comfort System which is a feature of every Sealy mattress. The concentrated layers of quality foam conform to the lower part of the back, designed to disperse pressure where it is needed most.

Correct Support

Correct support is important so your muscles can completely relax and recover. Sealy's revolutionary support system is uniquely designed to provide orthopedically correct support. The advanced Triple Offset Design provides, correct support and more stability than ever before. Made with Titanium alloy it is strong and engineered for performance.

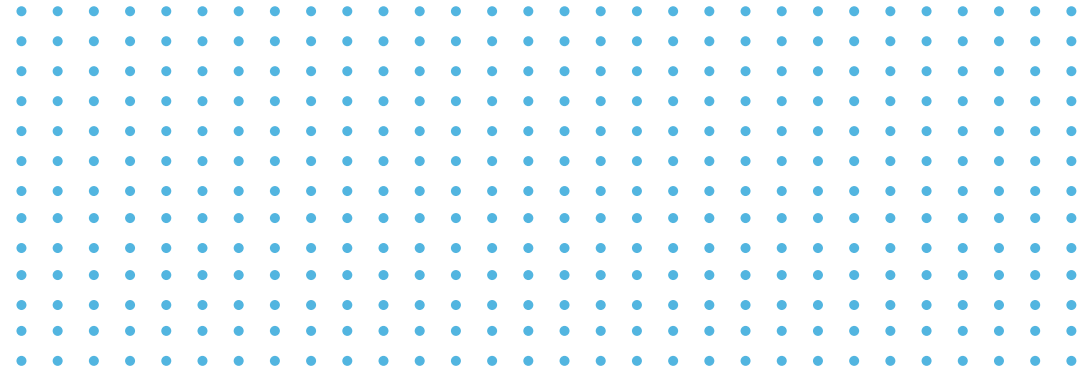

Providing support and stability, our innovative UniCased® edge support locks into the spring unit and encases the entire mattress to help reduce motion transfer.

The uniquely designed DuraFlex® foundation is made with Titanium alloy deflection modules to assist with the distribution of pressure, minimising motion transfer from your sleeping partner.

Look after your body, day & night

Support is at the
core of
everything
we do!

Sense and Respond Posture Tech Coil

A revolutionary technology that senses your body's weight and responds with initial conforming support, then provides the extra correct support your body needs.

DuraFlex® Foundation

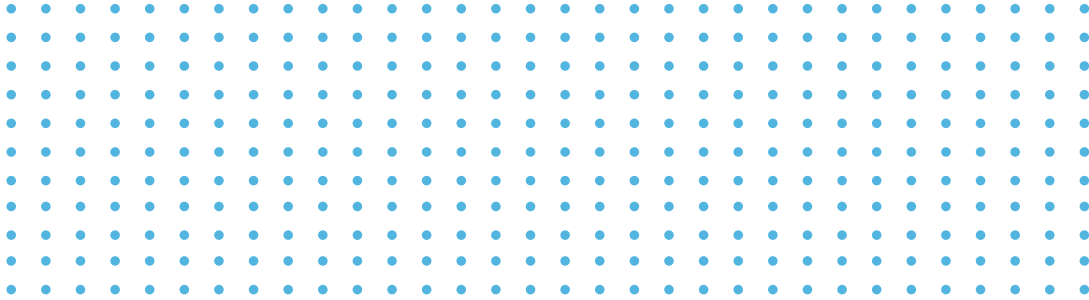

Like the Triple Offset coil, the steel modules in the DuraFlex foundation are made with Titanium alloy and disperse the shocks and stresses placed on the mattress over time.

LiftRight® Handles and StayTight® Foundation Cover

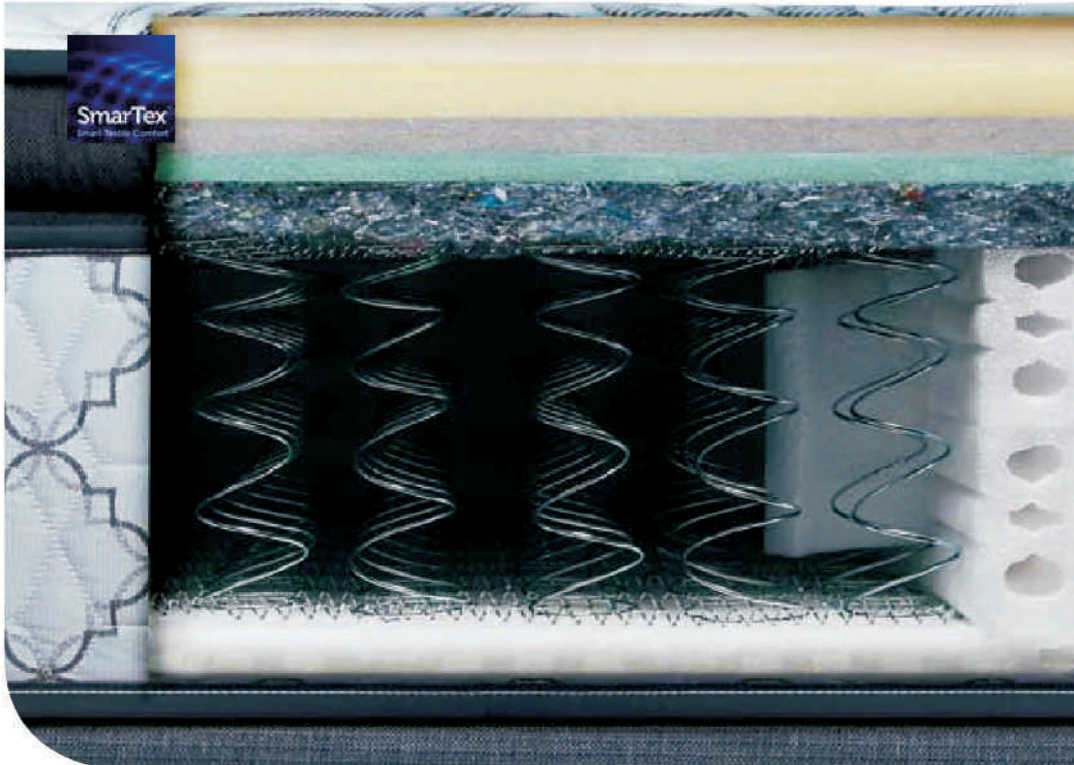

Sealy's clever technology continues to support you in smarter ways with LiftRight® handles that make moving your mattress easier. The StayTight® foundation cover features a subtle rubberised grip to help keep your sheets in place.

SmarTex[®] Fabric

SmarTex[®] Fabric helps to regulate the sleep surface temperature as needed throughout the night. This clever treatment only activates if your body temperature starts to increase. SmarTex[®] wicks away moisture to enable it to rapidly evaporate, giving you a comfortable sleeping environment. Layers of premium foams conform and mould to your body, providing pressure-relieving conformance where you need it most.

Support System

Sealy's unique Triple Offset Design support system is designed to sense your body's weight and motion, to respond with the deep-down support your body needs.

Open coils allow for air to circulate as you move in bed. UniCased[®] edge support locks into the support system to provide a stable sleep surface and to help reduce motion transfer for a blissful night's sleep.

Posture Premier Collection

Lohas
Height: 23cms

Posture Premier Collection

With multiple comfort levels to choose from, this collection is designed to provide outstanding comfort with the unique Stay True System and correct support with the revolutionary Posture Tech® coil technology.

With a soft-to-touch fabric on the top of the mattress and luxurious upholstered foundation, the collection presents an aesthetically beautiful sleep system for those who value a restful night's sleep.

Unique Technology

PostureTech® Classic Ti Coil

Our revolutionary design provides superior body conformance, while preventing roll together. The improved coil-to-coil hinging action enhances the innerspring's ability to intelligently adjust to the hips and shoulder.

Edge Guard

An engineered polyethylene insert placed around the entire perimeter of the mattress. It provides a firm seating edge and a stable feel.

UniCased® Collection

The UniCased Collection is the entry into the Sealy Posturepedic Range.

This Collection combines the Posture Tech® innerspring with UniCased® construction, providing orthopedically correct support which results in more reliable support and increases the life span of the mattress. UniCased® edge support construction increases the sleeping surface and provides stability to the mattress. It helps in reducing partner disturbance.

Only the finest materials in the world are good enough to go into a Sealy Mattress.

Our comfort materials are carefully chosen for their resilience, breathability and luxurious feel.
